Bandwidth	1/2 Mbps	1 Mbps	2 Mbps	5 Mbps
Setup Cost	\$150.00	\$225.00	\$375.00	\$775.00
Price / Month	\$195.00	\$295.00	\$495.00	\$995.00

Custom Configuration

Intechnic Corporation will gladly put together a custom dedicated server package in accordance with your hosting needs. This can include custom hardware configuration and bandwidth requirements. Please contact us for a quote for your particular needs.

Bandwidth

Intechnic Corporation measures bandwidth usage as throughput calculated in Mbps (Megabits per second). For example, 1 Mbps is equivalent to a nominal of 316 GB of bandwidth per month.* Customers are only liable for the bottom 95% of the overall monthly bandwidth usage.

To increase the amount of bandwidth throughput to the dedicated server, simply contact Intechnic Corporation to upgrade your plan. Decreasing the bandwidth throughput is also possible at the cost of one month extra payment at the previous rate (prior to the downgrade). Bandwidth throughput is available in the minimum blocks of 1/4Mbps.

Overage Fees

Bandwidth consumption over the purchased bandwidth throughput is subject to overage fees of two times of the regular bandwidth pricing for the bracket that your current usage falls under.

Optional Backup over the Wire

10 GB of raw data over the wire, 30 day retention - \$15/Month

Hardware Upgrades

If a customer chooses to upgrade or add any hardware to the existing server, there will be a \$180 installation charge per instance in addition to the cost of the new hardware.

Software installation

Intechnic Corporation offers a default operating system of Linux CentOS 4.2. Upon request any other operating system can be installed. Any applicable licenses and software must be provided by the client.

Installation/Configuration fees	-	\$120/hour
10 hour pack for software installation	-	\$950

Contract Terms

There is a minimum term of three months for all of dedicated server contracts. All accounts are subject to a one-time non-refundable setup fee that can be waived upon a full one year prepayment. 10% discount is awarded if account is prepaid for two years and 25% discount is awarded for a three year prepayment. Contracts of greater than three months and less than one year are subject to the following surcharges:

One Year Contract:	-	Listed Pricing
Six Months Contract:	-	Listed Pricing + 25% surcharge
Three Months Contract:	-	Listed Pricing + 50% surcharge

PLEASE NOTE: For all Custom-built servers, there is a minimum of a one year contract.

Uptime Guarantee and Support Service

- Intechnic Corporation offers a 99.5% Service Uptime Guarantee. Please refer to our Service Level Agreement for more details.
- Intechnic Corporation offers award-winning 24/7/365 support service via online, over e-mail or telephone free of charge.

Collocation

Intechnic Corporation offers custom collocation services (including equipment purchase options). Pricing is available upon request.

Optional Miscellaneous Work

The client may request services or miscellaneous work (not covered by regular support or maintenance) performed on their server at any time at our emergency rate or can schedule work ahead of time at our regular rate.

Emergency work (not covered by support)	-	\$150/hour
Other miscellaneous prescheduled work	-	\$120/hour

* This equivalent is calculated based on the constant 1 Mbps channel utilization for the period of one month. The actual number may vary depending on the fluctuations in usage.
